

- (GB)** Arc Fault Detection Device integrated with RCBO
- (D)** Brandschutzschalter AFDD mit FI/LS-Schalter
- (I)** Rilevatore d'arco elettrico con protezione magnetotermica differenziale integrata
- (F)** Détecteur d'arc électrique intégré avec disjoncteur différentiel
- (E)** Detector de arco eléctrico integrado con inter. diferencial automat.

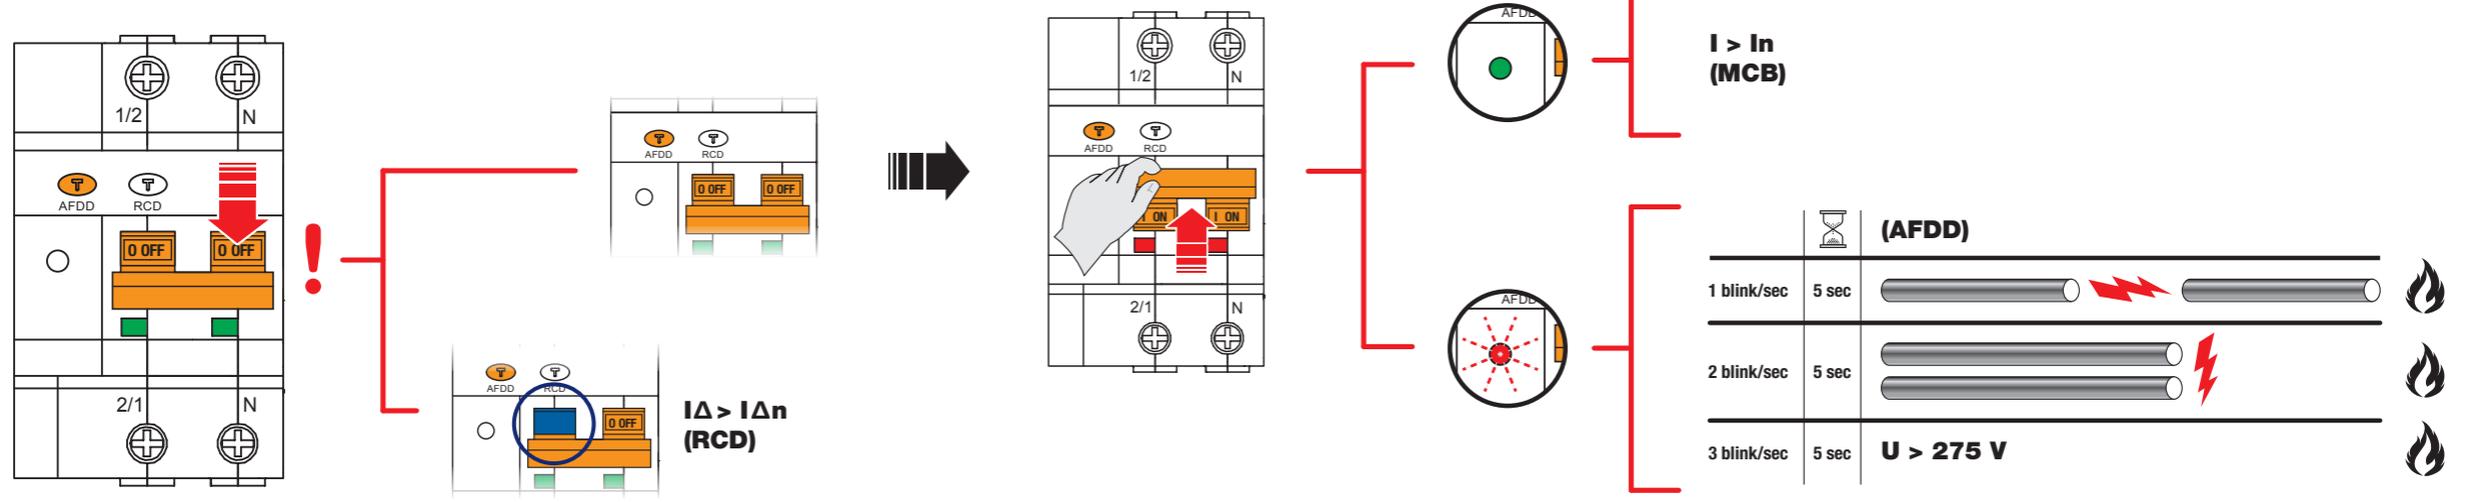

ZCSA42303D1002

LED indications after tripping • LED-Anzeige nach dem Auslösen

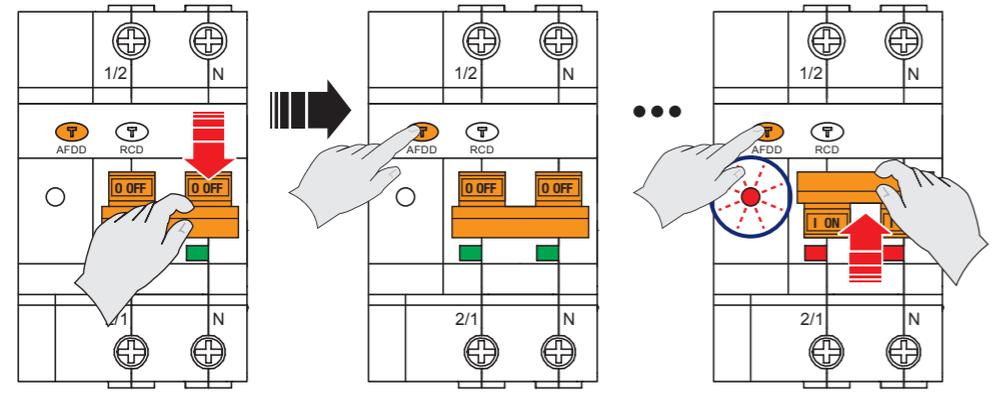

Indicazioni del LED dopo uno scatto • Indications de la DEL après déclenchement • Indicaciones del LED después un disparo

Recall of the last LED indication due to arc fault tripping or overvoltage
Abruf der letzten LED-Anzeige durch Fehlerlichtbogenauslösung oder Überspannung

Richiamo dell'ultima indicazione del LED per scatto per arco o sovratensione
 Rappel de la dernière indication de la DEL pour déclenchement pour arc ou surtension
 Recuperación de la última indicación del LED por el disparo causado por el arco o sobretensión

RECALL

Clearing of the memory of the last LED indication due to arc fault tripping or overvoltage
Löschen des Speichers der letzten LED-Anzeige durch Fehlerlichtbogenauslösung oder Überspannung

Cancellazione della memoria dell'ultima indicazione del LED per scatto per arco o sovratensione
 Annulation de la mémoire de la dernière indication de la DEL pour déclenchement pour arc ou surtension
 Limpiar la memoria de la última indicación del LED por el disparo causado por el arco o sobretensión
